Education

JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY

OCT 2021 - AUG 2025

NOIDA, India

Bachelor of Technology in computer science

CLASS 12

DELHI PUBLIC SCHOOL , Ghaziabad

93.8%

CLASS 10

DELHI PUBLIC SCHOOL, JALANDHAR

95.6%

Projects

Sukoon-a mental health website /*mongodb, react js, node js,* | <https://github.com/Aayushi1111/MentalHealthMERN>

- Added various resources such as find doctors near me, helplines, helpful articles ,diagnose quizzes,blogs ,journals,relax page using youtube and Spotify API
- USP features like meme generator, support groups

Bookly — Full Stack Project:

A web-based application that allows users to browse, search, and explore from the collection and shop books and book boxes online with user authentication and authorization via a complex database management system .

Techstack : HTML, CSS, JavaScript, PHP, MySQL (March '23)

Sign Language Recognition System using TensorFlow in Python

created a sign detector, which detects numbers from 1 to 10 that can very easily be extended to cover a vast multitude of other signs and hand gestures including the alphabets.

We have developed this project using OpenCV and Keras modules of python.

Achievements & Positions of Responsibility

- Contributed in girl script summer of code.
- Represented team at hackin summer '22 (college hackathon)
- Core member of open source software society of college
- Core member of student welfare society of college
- Solved more than 200+ problems across leetcode

Technical Skills

Languages: C++, Python, HTML/CSS, JavaScript, SQL, node express ,mongodb

Technologies/Frameworks/Libraries: ReactJS,Django,Express,Bootstrap,Tensorflow,opencv,linux
