EDUCATION

JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY, *NOIDA*   **OCT 2021 - AUG 2025**
Bachelor of Technology in computer science engineering

CLASS 12	DELHI PUBLIC SCHOOL, Ghaziabad	93.8%
CLASS 10	DELHIPUBLIC SCHOOL, JALANDHAR	95.6%

PROJECTS

Medical Insurance Cost Prediction | python   **sept 2023**

Through this project, the medical insurance cost of an individual is successfully predicted in USD with input parameters like age, sex, bmi, alcohol consumption, dependence, zone, expenditure, etc. Various distribution and count graphs for the dataset have been plotted using python libraries for visual illustrations and better understanding of the concept. This is achieved with the help of Linear Regression Model in Machine Learning, Python.

Sukoon -a mental health website */mongodb,react js,node js,/ https://github.com/Aayushi1111/MentalHealthMERN*
- implemented various features such as find doctors near me, helplines ,helpful articles ,diagnose quizzes ,blogs ,journals, relax page using YouTube and Spotify API
- Achieved USP features like meme generator, support groups

Bookly — Full Stack Project: **Dec2022**

A web-based application that allows users to browse, search, and explore from the collection and shop books and book boxes online with user authentication and authorization via a complex database management system .
Techstack : HTML, CSS, JavaScript, PHP, MySQL

COVID VACCINE MANAGEMENT IN C++ :   **Dec 2021**
The program allows users to manage vaccine-related data, including adding new vaccine records, viewing vaccine data, and searching for specific vaccine records based on various criteria.

Achievements & Position of responsibility

- Among top 1k out of 57k in TVS CREDIT IT HACKATHON
- Core member of open source software society of college
- Core member of student welfare society of college · Solved more than 200+ problems across leet code
- Contributed in girl script summer of code.
- Represented team at hackin summer '22 (college hackathon)

WORK EXPERIENCE

- **Web Development Intern** | CodSoft | August 2023 - September 2023
  Collaborated with the development team to work on various projects and tasks.
  - Gained hands-on experience in designing and coding web application s using reactjs - Demonstrated adaptability and problem -solving skills by meeting project deadlines.

- **Full Stack Developer Intern** | Bharat Intern | june 2023 – august 2023 - Engaged in hands-on learning, applying theoretical knowledge to real -world scenarios.
  - Developed and maintained web applications using a full stack technology stack in MERN

- Collaborated with a cross -functional team to design and implement new features, enhancing user experiences.

Technical Skills

Languages: C++, Python, HTML/CSS, JavaScript, SQL, node express ,mongodb
Technologies/Frameworks/Libraries: ReactJS, Django, Express, Bootstrap,Tensorflow,opencv,linux
TOOLS: MATLAB, Git
